

Score! Match: Complete 39 Player Archetypes Database

SECTION 1: GOALKEEPERS (3 PLAYERS)

1. GK-Keeper

Role: Traditional Shot Stopper

Best Position: Goalkeeper (GK)

Key Attributes: Balanced Saving Ability, Positioning

Tactical Strategy: Stays close to the goal line. He is reliable for stopping shots taken from outside the penalty box, but will not rush out to intercept long through-balls.

2. GK-Stopper

Role: Aerial & Power Shot Specialist

Best Position: Goalkeeper (GK)

Key Attributes: High Height, Shot Stopping Power

Tactical Strategy: The best long-range and header shot-stopper in the game. His height enables him to reach high corners, but his slow reaction speed makes him vulnerable to close-range tap-ins.

3. GK-Sweeper

Role: High Defensive Line Keeper

Best Position: Goalkeeper (GK)

Key Attributes: High Acceleration, Fast Rush-Out Reaction

Tactical Strategy: Automatically rushes out of the penalty box to clear long balls before enemy attackers can reach them. Excellent against speed-heavy opponent setups.

SECTION 2: REGULAR PLAYER ARCHETYPES (13 PLAYERS)

4. Guard

Best Position: Center Back (CB) / Central Defensive Midfield (CDM)

Key Attributes: 100% Safe Passing, High Strength, High Tackling

Tactical Strategy: Plays 1-touch safe passes instantly upon receiving the ball without dribbling. Essential for building possession without risking turnovers.

5. Engine

Best Position: Fullback (LB/RB) / Central Midfield (CM)

Key Attributes: High Stamina, All-Round Work Rate

Tactical Strategy: Covers the entire pitch from box to box. Assists both in defensive pressing and offensive wing support.

6. Speedster

Best Position: Striker (ST) / Winger

Key Attributes: Maximum Speed & Acceleration

Tactical Strategy: Explosive runner in open space. However, he rarely passes and tends to dribble directly into tackles if not given clear running paths.

7. Producer

Best Position: Wing Back (LM/RM) / Midfield

Key Attributes: High Curve, Excellent Crossing Precision

Tactical Strategy: Delivers curling crosses from the flanks directly to your strikers' heads.

Holds onto the ball slightly longer to find optimal passing lanes.

8. Hammer

Best Position: Central Attacking Midfield (CAM) / Striker (ST)

Key Attributes: Maximum Shot Power, Maximum Height, Strength

Tactical Strategy: The ultimate aerial target. Dominates set-pieces (corner kicks) and unleashes unstoppable long-range shots. Play 1-touch headers or passes with him.

9. Commander

Best Position: Central Defensive Midfield (CDM) / Center Back (CB)

Key Attributes: Maximum Height, Maximum Response Time, Safe Passing

Tactical Strategy: Midfield boss. Wins aerial duels on goal-kicks and immediately distributes the ball safely to wingers or attack.

10. Protector

Best Position: Center Back (CB) / Fullback (LB/RB)

Key Attributes: High Strength, Heading Ability, Safe Passing

Tactical Strategy: A taller, stronger version of the Guard who can cross the ball if pushed into wider fullback areas while remaining defensively solid.

11. Infiltrator

Best Position: Winger (LW/RW) / Forward

Key Attributes: Dribbling, Agility, Decent Speed

Tactical Strategy: Cuts inside from wider areas to attempt direct shots on goal. Prone to over-dribbling if not played into space.

12. Intruder

Best Position: Center Back (CB) / Wing Forward

Key Attributes: High Speed, High Response, Smart Distribution

Tactical Strategy: Fast and responsive. Excellent at Center Back to neutralize opponent Speedsters, or as a winger who can cross before getting tackled.

13. Prowler

Best Position: Central Attacking Midfield (CAM) / Striker (ST)

Key Attributes: Maximum Response Time, Quick Release

Tactical Strategy: Reacts faster than any defender to loose balls. Shoots instantly upon receiving inside the penalty box.

14. Architect

Best Position: Central Attacking Midfield (CAM)

Key Attributes: Maximum Skill, Extreme Curve Passing

Tactical Strategy: Specialized playmaker. Delivers curved through-balls over or around opposition lines to setup clean scoring opportunities.

15. Menace

Best Position: Striker (ST)

Key Attributes: Balanced Speed, Height, Shooting, and Power

Tactical Strategy: Complete forward. Can score via headers, long-range shots, or quick runs into the penalty box.

16. Explorer

Best Position: Center Back (CB) / Fullback

Key Attributes: High Pace, Defensive Tackling

Tactical Strategy: Fast defender capable of recovering ground quickly against counter-attacks. Dribbles slightly more than Guards before passing.

☀ SECTION 3: SUPER & SPECIAL PLAYERS (23 PLAYERS)

17. Voyager (Patrizio)

Archetype Base: Super Explorer

Best Position: Center Back (CB) / Fullback

Key Attributes: Pace + Heavy Strength + Safe Passing AI

Tactical Strategy: Top-tier defender. Combines the speed of an Explorer with the physical dominance of a Guard. Won't lose the ball in dangerous areas.

18. Bulldozer (Matsumoto)

Archetype Base: Super Hammer

Best Position: Striker (ST) / Central Midfield

Key Attributes: Extreme Strength + Height + Dribble Power

Tactical Strategy: The ultimate target man. Bullying defenders with physical force, he wins every corner kick header and possesses devastating shooting power.

19. Jet (Sabré)

Archetype Base: Super Speedster

Best Position: Striker (ST)

Key Attributes: Max Speed + High Response + Lethal Finishing

Tactical Strategy: Superior to the standard Speedster because his high response allows him to beat defenders to through-balls and finish accurately.

20. Poacher (Sandberg)

Archetype Base: Super Prowler

Best Position: Striker (ST) / CAM

Key Attributes: Extreme Acceleration + Unmatched Response Time

Tactical Strategy: Breaks offside traps with ease. Gains immediate possession off deflections and finishes with first-time shots.

21. Major (Wolfgang)

Archetype Base: Super Commander

Best Position: Central Defensive Midfield (CDM) / Center Back

Key Attributes: Tall Height + Max Shot Power + High Response

Tactical Strategy: Upgraded Commander who can also score long-range screamers from outside the penalty box.

22. Marksman (Faustinho)

Archetype Base: Super Producer

Best Position: Wing Back (LM/RM) / Winger

Key Attributes: Long Range Curve + Precise Crosses

Tactical Strategy: Delivers pinpoint crosses into the penalty box and scores curved long-shots from wide angles.

23. Wizard (Zimmer)

Archetype Base: Super Architect

Best Position: Attacking Midfield (CAM) / Winger

Key Attributes: Elite Playmaking AI + Maximum Curve Skill

Tactical Strategy: Unlocks tight defensive setups with bending passes that bypass whole backlines.

24. Raider (Keene)

Archetype Base: Super Intruder

Best Position: Center Back (CB) / Fullback

Key Attributes: High Speed + High Tackling Response

Tactical Strategy: Aggressive defender who dispossesses attackers quickly and immediately starts counter-attacks with accurate passes.

25. Invader (Bertini)

Archetype Base: Super Infiltrator

Best Position: Winger (LW/RW) / Forward

Key Attributes: Speed + High Response + Controlled Dribbling

Tactical Strategy: Drives directly into the penalty area with speed while retaining the intelligence to pass or shoot at the optimal moment.

26. Hero (Jones)

Archetype Base: Super Engine

Best Position: Central Midfield (CM) / Wing Back

Key Attributes: High Stamina + Balanced Technical Stats

Tactical Strategy: Controls the tempo of the game, making critical box-to-box runs for 90 full minutes.

27. Warrior (Sierra)

Archetype Base: Super Protector

Best Position: Center Back (CB) / CDM

Key Attributes: Maximum Tackling + Strong Physicality

Tactical Strategy: Defensive wall. Wins ground tackles cleanly and distributes simple, safe passes.

28. Pickpocket (Simon)

Specialty: Dispossession Specialist

Best Position: Central Midfield (CM) / Defensive Midfield

Key Attributes: Maximum Tackling Success Rate

Tactical Strategy: Sneaks behind opponent ball-carriers to steal possession without conceding fouls.

29. Judge (Johnson)

Specialty: Midfield Controller

Best Position: Central Midfield (CM)

Key Attributes: Smart Positioning + High Response + Safe Distribution

Tactical Strategy: Stabilizes the central area by intercepting passes and keeping ball movement fluid and safe.

30. Juggernaut (Cook)

Specialty: Heavy Tank Attacker

Best Position: Striker (ST)

Key Attributes: Maximum Physical Body Strength

Tactical Strategy: Absorbs tackles from defenders without losing balance or momentum while driving toward goal.

31. Lightning (Abubakar)

Specialty: Instant Acceleration Specialist

Best Position: Forward / Winger

Key Attributes: Instant Top Speed Burst

Tactical Strategy: Reaches maximum speed within the first second of receiving a pass, making him ideal for quick breakaways.

32. Thunder (Junior)

Specialty: Moving Aerial Striker

Best Position: Striker (ST)

Key Attributes: Running Header Power & Jumping Reach

Tactical Strategy: Attacks incoming crosses on the run, driving powerful headers past the keeper while in motion.

33. Composer (Zivkovic)

Specialty: Ultimate Wing Passer

Best Position: Wing Back / Wide Midfield

Key Attributes: Max Curve + Long Range Precision Passing

Tactical Strategy: Can ping long-range diagonal passes across the entire field directly onto your striker's head.

34. Hitman (Sinclair)

Specialty: Off-The-Ball Runner

Best Position: Second Striker / CAM

Key Attributes: Smart Tactical Positioning & Space Identification

Tactical Strategy: Makes intelligent off-the-ball runs into blind spots of the opponent's defense.

35. Gatecrasher (Hakan)

Specialty: Defensive Line Breaker

Best Position: Striker / Winger

Key Attributes: Channel Running Speed & Agility

Tactical Strategy: Exploits the narrow gaps between opponent Center Backs to receive direct line-breaking passes.

36. Cannon (Benitez)

Specialty: Long Range Shooter

Best Position: Central Attacking Midfield (CAM) / ST

Key Attributes: Extreme Outer Box Shot Power

Tactical Strategy: Capable of scoring long-range goals from well outside the penalty box without needing to enter the box.

37. Villain (Fernandez)

Specialty: Trick Finisher

Best Position: Striker (ST)

Key Attributes: High Agility + Curved Finishing

Tactical Strategy: Feints goalkeepers and bends shots into the far corner of the net with extreme finesse.

38. Maestro (Lee)

Specialty: Possession Master

Best Position: Central Midfield (CM) / CAM

Key Attributes: Ultra-Safe Ball Retention & Passing Accuracy

Tactical Strategy: Dictates play and ensures your team never loses possession in the build-up phase.

39. Finisher (Traore)

Specialty: Low Cross & Driven Shot Specialist

Best Position: Winger / Forward

Key Attributes: Driven Ground Crosses & Powerful Low Finishing

Tactical Strategy: Fires low, hard-driven crosses across the face of the goal for easy tap-ins, or finishes low into the corners.
